

Learn RUST, the CODING language. As taught by Dan RUST, as in the curse upon iron. (Fe_{203})

The most popular programming language for several years running

started by Mozilla Foundation, the Firefox people

1 Reasons

- It's extremely good for *data*
- Works great with *Python*
- It's both a systems-level language like C++ and C and a *high-class* language such as Ruby or Java, but more *secure*

2 How? WHEN???

- WHEN?? - 1500L, every Wednesday, starting 31 MAY
- WHERE?? - North Spark Defense Lab! 641 Alert Ave, Grand Forks AFB, ND 58205
- How?? - *Old School* DIY - practice "*the hard way*"
- We will convene to set goals, discuss methods, compare notes, and clear logjams

3 What would you say...I do here?

- *YOU*
- *BEST*
- *BELIEVE*
- *INNOVATION*
- JOIN ME

STUDENTS???

- Rust on the pedal never ever false metal

- Isn't he ironic?

- This is Ferris, unofficial official Rust mascot

Need more info???
